

Moorgate Metals - Corporate Capability Statement

Global Metals. Circular Future.

Company Overview

Moorgate Metals is a UK-based international non-ferrous metals trading business connecting qualified sources of recycled metals and secondary raw materials with industrial demand across international markets.

Initial Materials Focus

Copper and aluminium, including selected prepared scrap grades, cable, granules, UBC, extrusion, cast and mixed aluminium units.

Commercial Model

Transactions may be structured as principal, intermediary or transaction coordinator arrangements. The contractual role is defined before execution.

Core Controls

Counterparty verification; written specifications; commercial and payment alignment; inspection coordination; loading and documentary controls; shipment oversight; discrepancy escalation.

Legal Identity

Moorgate Metals is a trading brand of Samanta Factory Ltd, registered in England and Wales. Company No. 15958521. VAT No. GB 487121384.

General information only. Transaction-specific terms are governed by signed contracts and applicable professional advice.
